Use this amazing site to edit link: Tech Tools For All Productivity Tools http://goo.gl/vsM6Yc (case sensitive)

1) Edit YouTube video's link

- Change to PowerPoint.

- Leave playback time boxes empty if you don't want to start/end the video at a certain time.

2) Return to PowerPoint

- Activate developer tab:
    - File -> options -> customize ribbon -> customize the ribbon (right column) -> select developer box

- Go to developer tab:
    - select the hammer wrench (1), scroll down to Schockwave Flash Object, select it and draw a window for the video
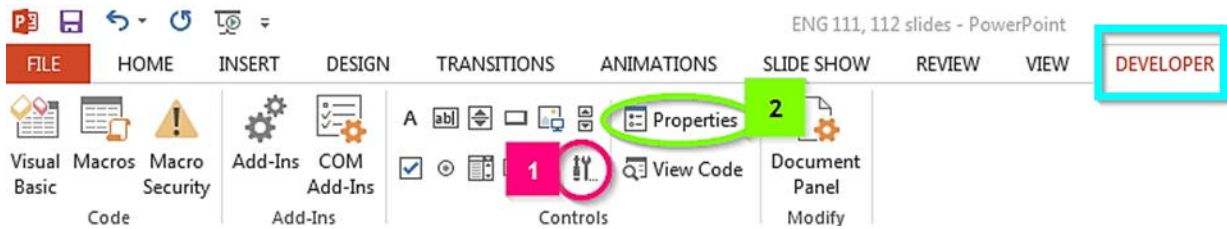

- Go to Properties (2) and paste the edited url into the box next to Movie

left	290
Loop	True
Menu	True
Movie	
MovieData	

3) Save as PowerPoint Macro-Enabled Presentation
